

Register now for the opportunity to be part of the **MTIA Show-Me Expo** designed for the industry's outside plant and craft employees. Join your telecom friends and industry suppliers for this two-day event that will feature exhibits of the latest in equipment & technology, two training sessions, a reception, and a buffet lunch.

The show is designed as a one-day event that will "repeat" each day so that more of your company's workforce can attend.

MORNING SESSION

Commitment to Safety: Adopting a "There Are No Accidents" Philosophy

&

Telecom Employee Safety Programs: Managing Injury Risk

*Presented by: Mark A. Woodward
Senior Safety and Risk Trainer
Missouri Employers Mutual*

This unique and highly interactive session seeks to overhaul common employee perceptions about workplace safety and accidents. We'll discuss how each of us places value on our individual lives, family and standard of living. We'll discuss risks and risky behaviors, personal decisions, and common traps that result in employee injury.

Our second hour will focus on putting a safety philosophy into practice. Is your safety program gathering dust? Are you putting off safety meetings? When were the safety policies reviewed last? How do you manage safety in small companies? Safety programs should produce results, like reduced injuries or a squeaky-clean OSHA visit. We'll discuss the "must haves" of telecom employee safety programs, and what it takes from each employee to make safety efforts worthwhile.

AFTERNOON SESSION

5G Wireless: Technology Trends & Service Deployment Requirements

*Presented by: Finley Engineering
& Industry Partners Panel*

We know that 5G wireless technology is rapidly becoming a reality, and ILEC carriers need to get prepared. This session will focus on the anticipated timeline for deployment of 5G services, the unique capabilities of the new technology, and the fiber and other infrastructure requirements needed for 5G service deployment. The presentation will include a panel discussion from several industry partners.
